Dressed in a blue costume with white ribbon bows profusely distributed thereon, with her golden hair hanging down her back a pretty young girl walked from the court house down street Wednesday accompanied by a sturdy young man holding in one hand a marriage certificate and with the other holding tightly the hand of the girl. They were neither awkward nor embarrassed. They were oblivious to the curious stares of the people. They were married and didn't care who knew it. Their little romance had ended in the good old fashioned way. May they, whosoever they were, live happily ever afterwards.

DO YOU WANT TO GET WELL MRS. ED NOLTE, Magnetic Healer

has practiced in Falls City and vicinity for five years, and her success has long been established. She has effected cures in many instances where the patients had been given up to die.

Magnetic Healing is a Science—one that requires a perfect knowledge of the human anatomy. Its application is logical and its cures are certain and permanent. It is not a myth, but is founded on common sense and appeals to the judgment of every unprejudiced person.

Magnetic Science is becoming so popular that, like other good things, unscrupulous people, who know nothing of the Science, are imposing upon the public. This, however, is no fault of the Science. Beware of such people who not only impose upon you, but who are doing the profession a great injury.
